There was once a sailfish who never stopped boasting about how fast he was and that he was the fastest animal in the ocean.

The sailfish said "I'm tired of racing animals here" so he decided to go on holiday to Greenland...

Meanwhile a lonely Greenland shark was swimming at 0.76 MPH because he is the slowest fish in the ocean.

The sailfish was over $\frac{3}{4}$ of his journey to Greenland.

Five minutes past and the sailfish arrived in Greenland.

A few days later, the sailfish
bumped into the Greenland shark

Then the Greenland shark
asked the sailfish "are
you up for a race?" "Of
course I am" said the sailfish
proudly. "I won't because I'm

the fastest fish in the
ocean" he added. Suddenly the
Greenland shark interrupted
"shall we get on with the
race?" A few minutes later

they were on the start
line and a small group
of fish had gathered
around to watch. MASA

octopus waved the fish
and gargled "on your
marks, get set go!"

The sailfish shot off
at a terrific pace. "Be
yourself" said the fish
wiper of the Greenland
shark. The Greenland shark

swam off slowly but
picked up speed.

Meanwhile the sailfish
stopped outside a ship's

"I won't hurt a bit
if I take a peek inside"
he said. So he went
inside and explored. He
found an old cannon

and almost lined himself.
Suddenly he fell down a
trap door and found
himself in a room full
of jewels, including gold
, rubies, diamonds and a
mixture of crystals.
Meanwhile the Greenland
shark was over halfway
in only an hour (for a
Greenland shark).
Through a window the
sailfish saw that
the Greenland shark
wasn't far from the
finish line. But then he
realised the shipwreck
was like a maze!
He struggled to find a
way out but he could
couldn't so he said "there's
only one way and
that's the way I came."
So he got a 10 m run
up and charged at the
trap door at 70 mph!
And CRASH the trap
door burst open. He
zigzagged through
crooked rooms and out of
the emergency door
he shot down the
track but before he

R eat facts of these animals

5 minutes later

the sailfish

Greenland shark

Sailfish

drive in Greenland

the Greenland shark is the slowest fish in the ocean.

The sailfish is faster than a cheetah.

How long does it take the sailfish to get to Greenland?

only known to go at 0.76 mph. of over 300 sharks that is possible

to go at 70 mph which makes it the fastest fish in the ocean

Home Points!
Amazing work well done
