Lickey Hills Primary School & Nursery School Newsletter

Friday 19th November 2021

This week's total school attendance is 95.55%

Dear Families.

'Hurting someone's feelings is as easy as throwing a rock into the ocean, but you don't know how deep the rock goes.' This quote was given to me by Oscar in Year 6 after our upper key stage two assembly. He'd read it in a book and told me that it had really stuck in his mind. He's written it out and it's on my office door; it's such a good reminder to everyone of how our behaviours can impact deeply on others. This week we have been celebrating 'anti-bullying week' with some kind words and actions to others as well as celebrating what is good about ourselves. We also reminded everyone this week that they must tell an adult if they experience, see or hear bullying behaviour in school or at home. It really is essential to speak out so that LHPSN is a safe and happy place for everyone.

We welcomed a visitor into school this week to talk about reading. It was lovely to see the children's faces light up as they talked about their favourite books and authors. We saw some fantastic phonics and heard wonderful independent and choral reading. We know that children who are not introduced to books are missing out on a lifetime of enjoyment which is why we appreciate your support in hearing your child read each week or encouraging them to read independently at least three times each week. Attached with this newsletter is 'The Great Book Guide 2021', your children may want to add one or two to their Christmas list. Speaking of Christmas, a letter will be with you shortly outlining the school events this year

Yours in Learning

The National Sleep Helpline 03303 530 541

The National Sleep Helpline helps anyone with sleep issues including adults, parents and young people. The helpline is available from 7pm and 9pm, Sunday to Thursday on 03303 530 541.

Poor sleep can affect anyone and it can be a major stress for parents whose own sleep can be impaired by their children's difficulties getting to sleep, staying asleep or staying in their own bed, leading to greater stress.

Having a sleep issue is surprisingly common. At any given time this affects up to 40% of adults and 50% of children (this rises to 80% with a SEND diagnosis). These problems are typically persistent and do not resolve themselves without intervention.

Families often don't know where to seek help and yet issues can often be nipped in the bud with basic and accessible interventions.

Happy Birthday! (20th Nov - 3rd December)
