

Maths Lesson Structure at LHPSN

Children may work at different paces through the sections. Some may need further use of supporting representations, some may be identified as needing further adult support, some may benefit from further challenge through careful questioning and 'Deepen It' activities. Not all children will get to the 'Deepen It' activities but should be encouraged to share in the resulting explanation and discussions.

Teach It

Start the journey together through the exploration of the hook 'Explore' and the model 'Master' sections.

Practise It

Try some
questions
together through
'Partner Work' /
'Activity Time'
and 'Guided
Practice'
sections.

Do It

Children complete
workbook
activities.
Teachers will
have identified
those for further
scaffold and/or
support during
Teach It and
Practice It.

Secure It

Challenge mathematical thinking and understanding through tasks in journals.

Deepen It

Challenge higher level mathematical thinking and understanding through tasks in journals.

Reflect

Reflect on and discuss our learning journey together.
